# Lighting Rental

When we say we have the largest photographic rental stock in Europe, we're not exaggerating. The lighting inventory alone stretches from flash and continuous lighting gear, to generators, effects equipment, cable, clamps and much more.

Since starting in 1993, we've built great relationships with the world's leading manufacturers of lighting and we continue pushing the boundaries, testing and demonstrating new equipment to ensure our stock is the latest and most reliable. Our experienced lighting technicians can be on hand to help select the right equipment, as well as set up if required.

All prices quoted are in £s  
and do not include VAT
